FACTORY OVERVIEW

10,000 m²

State-of-the-art seafood complex

PHUC TAM LOI FISHERIES IMPORT EXPORT CO.,LTD is investing in a **state-of-the-art 10,000 m² seafood processing complex**, strategically located in the heart of the Mekong Delta.

- 
Advanced Processing Lines
- 
IQF & Air Blast Freezing Technology
- 
100+ Tons Daily Capacity
- 
International Export Standards
- 
High Efficiency & Consistency

Farming & Raw Material Areas

- 40+ Pangasius Farm Areas
- Modern, Traceable Farming System
- Professional Aquaculture Team
- Sustainable & Safe Practices
- Stable Raw Material Supply
- Fully Integrated Global Supply Chain

The Mekong Delta – Vietnam’s Seafood Hub

Known as Vietnam’s “rice bowl” and “aquatic heart,” the Mekong Delta’s fertile rivers and mild climate create the ideal ecosystem for aquaculture.

Renowned for pangasius (basa fish), the region enables PHUC TAM LOI to deliver **Vietnam’s finest seafood to global markets.**

SUPPLY CHAIN EXCELLENCE

From farming ponds to international markets, our supply chain is designed for **speed, safety, and efficiency.**

01

- Speed – Safety – Efficiency

02

- Strict Harvest & Transport Control

03

- Modern Processing & Freezing Lines

04

- Advanced Cold Storage

Certificate

We are building a world-class quality management system, aligned with the highest global standards: **BRC, HALAL, SMETA, ASC, HACCP, ISO**

- Our production and quality teams follow global best practices, ensuring every batch is rigorously tested in-house and verified by international organizations like **SGS, Intertek, and Eurofins.**

Our Vision

PHUC TAM LOI strives to become one of **Vietnam's most prominent and trusted seafood exporters**, bringing the essence of the Mekong River to dining tables around the globe.

- Deliver **safe, sustainable, and premium seafood** to global customers
- Build strong partnerships with farmers and fishermen
- Contribute to environmental protection and responsible aquaculture
- Create a world-class working environment for employees

Sustainability Commitments

Customers: Food safety, transparency & consumer health; adapting to global market demands.

Farms: Advanced farming practices, full process monitoring & fair profit sharing.

- **Human Resources:** Continuous training, integrity-driven culture & sustainable growth.

- **Quality Control:** End-to-end monitoring ensuring top safety & premium quality.

FARMING OVERVIEW

FACTORY OVERVIEW

10,000 m²

FUTI FV factory in the process of building at 10.000 m² with a modern multi-fruits and vegetables processing line. We have IQF Freezer and Air Blast Freezer with capacity is **50 tons of finished products per day.**

FUTI FV with hectare's thousands of agricultural land and a team of professional engineers. Moreover, we have a well-invested processing site with the desire to bring sustainable supply chains with the food safety and best quality products to customers.

SOURCE OF TROPICAL FRUITS IN MEKONG DELTA

- Vietnam has a tropical climate, therefore this S-shaped land is the home of various fruits. Across the country, every region has its signature fruits that can make Vietnam outstanding on the culinary map. If you are fond of fruits, let's head to Western Vietnam, because you can find lots of fresh fruits in Mekong Delta.
- As a downstream area of the Mekong River, the Mekong Delta has an interlaced river topography. The alluvium in the Mekong River is the main source of nutrients for plants. Along with that, a mild climate for around a year is suitable for the formation of specialized fruit-growing areas. There are great factors that have turned the Mekong Delta into the largest fruit basket in the country with a wide variety of fruits such as rambutan, mango, durian, longan, banana and dragon fruit,.....
- Besides, there are also some typical vegetables such as: Baby corn, Green soy bean (Edamame),

Certificate

We will build quality management systems such as: **BRC, FSSC 22000, Halal, Kosher, Sedex,...**

- Our production team and QA team have been well trained with years of experiences in order to make sure that our products are complied with the qualification as well as food safety
- Finished product will be tested at internal lab and external lab (**SGS, Intertek, Eurofins,...**)

Our Vision

FUTI FV one of the leading suppliers in the field of frozen vegetables and fruits of Vietnam, bringing highest quality agricultural products of Vietnam to the world.

- Supply the food safety best quality products to Customers
- Farmer's Companion
- Protect the environment
- Create the safest and best working environment for employees

Supply chain

The raw material areas" are invested with modern farming techniques to produce high-quality clean products.

- Fresh fruits and vegetables are quickly transported to the production plants, then sorted and processed by the modern processing lines and frozen.
- After being processed, frozen and packaged, these products are quickly put into the cold storage, loaded into containers and exported to customer.

Sustainability Commitments

- **Customers:** Committed to food safety, transparency, and consumer health, while meeting global market standards.

- **Farms:** Advanced, traceable farming with expert supervision and fair profit sharing.

- **Human Resources:** Continuous training, integrity, and professional growth drive our success.

- **Quality Management & Control:** Comprehensive system ensuring top safety standards and premium quality.
